Dear Sir:

It has occurred to me that there is a possibility you are not quite fully aware of the (now) multiple grievances that I have with you. This is based on the history of the actions of your staff. (I also realize that you might not be the first individual to read this letter...it may be intercepted.)

The **first** grievance started in the Fall of 2009 when I made a personal trip to Washington, D.C. This was to attend what I considered an historic committee meeting on H.Res. 1207, the Federal Reserve Transparency Act. After this hearing, I, obviously, made visits to the offices of the Washington State & Pierce county members, including yours. In addition to signing your "Guest Book", I requested from Pete Modaff some paper to write you a brief constituent note; I also requested that he make a color photocopy of a replica 1932 $100,000 gold certificate, because I referenced it in my letter. As he is walking back to the counter, I notice that he's tearing it into pieces. I made note of this and requested some tape to put it back together. Since I don't visit the District that often...only once a decade or so...I continued with conversation, until I'm rudely ejected from the premises, by being asked to leave by Capitol Police, who had been called by someone. As this was a Thursday, you had already left to return here to Washington, and could not directly intervene. This contrasts greatly with how I was treated by the Adam Smith office, who let me leave my belongings there while I was in Rayburn.

The **second** grievance occurred when I attempted to make a second personal inquiry of the status of the resolution of the first grievance, at the Education Voter Forum in Tacoma, subsequent to a candidates' panel in Sequim. After you shrugged me off and your Tacoma Director, Brunkow-Mather, told me there was no time to discuss this, I went outside and removed the six campaign signs of yours which had been unethically (and perhaps illegally) placed there by your team. Within minutes, the Tacoma Police arrive and arrest me on a number of misdemeanor charges, all of which are dropped within 30 days. I read in one of the reports how Brunkow-Mather had lied and stated I was waving your signs 'dangerously' around. The truth is, that I was standing on one as a form of political protest.

The third **grievance** occurred when this Brunkow-Mather character files an Anti-Harassment petition in Pierce County District Court, purportedly on your behalf in addition to him and the other staff in your Tacoma office. This, as a consequence of trying to resolve the first grievance, by talking with you at the Center for Urban Waters opening and subsequently attempting to do the same at the Whitman elementary school.

So. I would like to know how you wish to proceed, and what your thoughts on these issues are. If you desire further clarification or information, you may write to me at my address above. If you wish to apologize, I will make time available in my schedule to meet you, even though I am now running for city council. If you would like to expedite your response and call me instead, my office number is 253+682+4011.
