THANK YOU!

We will deliver the postcard to Washington State Redistricting Commission and keep you informed.

Please contact me about:

- ☐ Writing letters to the editor
- ☒ Speaking to others in my community
- ☒ Attending a public forum

Dear Commissioners,

I support the creation of a Congressional District that is majority people of color!

According to Census 2010, there are almost 680,000 people of color in King County. The Washington State Redistricting Commission should create a "majority minority" Congressional District to encourage full representation for communities of color.

Sincerely,

Dear Commissioners,

I support the creation of a Congressional District that is majority people of color!

According to Census 2010, there are almost 680,000 people of color in King County. The Washington State Redistricting Commission should create a "majority minority" Congressional District to encourage full representation for communities of color.

Sincerely,

Dear Commissioners,

I support the creation of a Congressional District that is majority people of color!

According to Census 2010, there are almost 680,000 people of color in King County. The Washington State Redistricting Commission should create a "majority minority" Congressional District to encourage full representation for communities of color.

Sincerely,

Francisco IRIGON
