Dear Alex:

I am forwarding your email to the state Redistricting Commission, which handles legislative and Congressional district boundaries.

Thanks,

MessageText: The 5th Legislative District is almost entirely in the 8th Congressional, except for two precincts which are in the 9th Congressional. I think this is silly and that it would make a lot more sense if we could do our best to get LD and CD boundaries to line up. I mean it's two precincts, not even 500 registered voters between them, seems to me like we ought to be able to get the boundaries to line up.
