I recommend keeping Grays Harbor County divided into three separate districts. Currently there are different needs and opinions from the coastal areas to the west, the eastern part and the areas to the north.

As to being part of a new 10th district, that may be a good idea. Norm Dicks has more interest in the areas around Bremerton than out here in the more rural area. The county would probably be better served by a new representative that covers this area. It all depends on the boundaries of the area included in the 10th district. If too much of the I-5 corridor is included, the areas to the west will be excluded because of population.

Please include these comments in the Aberdeen record. I will not be able to attend. Thank you
