Question: Should you really be considering 'Norm Dicks area' as a part of the redistricting issue? Or, should you consider what is best for ALL public interest as a whole?

Recommendation: I live in Grays Harbor County and I am a young part of the Y generation. I am not politically oriented. But, I heard that several people present at the Grays Harbor College forum.

Indicated that the redistricting should be done not to affect Norm Dicks area. Frankly, Norm Dicks has been in office longer than I have been alive. He is either going to end up retiring or dying sometime in the future. I recommend that the commission take the issue of 'a Norm Dicks District,' out of the equation for the proposal. The redistricting commission should take 'the Norm Dicks element,' out of the equation process-to be fair to the general public, overall. We, the general public, are not all political heavy weights, with special interests of a singular party, in mind. I heard nearly everyone that was in attendance at your Grays Harbor College meeting was a paid politician, of some capacity in Grays Harbor. Taking the meat of feedback of a paid politician, is not representative of the whole of Grays Harbor. But, again, this is the opinion of a 20+ year old, young college graduate. After all, we are the next generation. 'Norm Dicks,' I honestly do not know much about him, except that he has not made too many appearances in Grays Harbor recently. He seems like a decent man -but it also near the end of his long career -simply because of he is getting old. So, as I suggested earlier, breaking up 'Norm Dicks area,' should not be part of the consideration. It really is not 'his area' but a 'district' area. Thank you.
