Question:

Recommendation: Please support the effort to create that "majority minority" district the comprises of south King County. If you look at the current Congressional delegation, it does not accurately represent the ethnic make up of the state, specifically within King County. Whether it becomes the new 10th District, or the 7th District moves south to take in south King County, I feel that creating such a district would accurately reflect the changes primarily in Puget Sound over the past decade. South King County is a very ethnic district, full of culture of different peoples. This would give a voice in Congress for these residents. Please support the creation of the "majority minority" district.
