Question: Why is there not adequate minority representation for the resident population within the Tri City area?

Recommendation: I am a near life long Tri City resident. Within the Tri Cities there has always been a problem with minority representation. Historically this was in the representation of African American and Asian American populations. Within the 2010 US Census it was noted that the Hispanic population comprises a population majority in Franklin County and even Pasco. I strongly urge a new State Representative or Senator be specifically targeted from these areas; for the Tri City area. The qualified candidates are out there, please consider them.
