Question: none

Recommendation: I would really like to see Bremerton be within one district or if necessary 2 districts. I believe the current three district split is detrimental to the representation of Bremerton residents. I recently looked up my district, wondering if I was 23 or 26 (candidates for both districts place signs in my neighborhood) and found I was grouped with Mason County in #35. In my neighborhood I can walk through three districts and it makes no sense where the lines are drawn. The lines do not even respect the neighborhoods within the City. District 35 even includes a small portion of east Bremerton that is geographically separate from the rest of the district. It seems illogical that the most populated City in Kitsap County is segregated into three districts.

I do not pretend to know where the line should be, I would just like to see fewer lines cutting through the City of Bremerton. I appreciate the opportunity to comment.
