Subject: Why we are redistricting
Date: Saturday, July 23, 2011 7:21:50 PM

Dear WA State Redistricting Commission,

Thank you for adding me to your distribution list.

The last census is unconstitutional and flawed.

By design, the census takers included EVERY person, not ALL LEGAL US CITIZENS in their counting. Thereby, they have illegally included too many people. For example, every illegal alien who has broken our laws and entered our country illegally, but with the consent and blessings of both political parties. Did the census takers visit all the prisons and jails and thereby include additional lawbreakers? From my sources, there are approximately 60% illegal aliens incarcerated, and they have no voting rights. This is both illegal and unconstitutional. Correct me if I am wrong with references to any existing (lawful) law or document.

You (the commission) will follow your illegal orders and redistrict accordingly. This census was a sham and another arrow into the heart of our beloved Constitution. You need to question the authority and correct all errors before proceeding.

I do appreciate your coming to Spokane on your tour to inform the populace of your intentions and taking our comments. However, I fear that the commission will bend to the political will of your supervisors and continue with your current course of action and marching orders. This action dilutes my vote and I do not want non-citizens, illegal aliens, or any other person not duly entitled to vote, to cast a ballot. I earned this privilege and swore an oath to uphold the Constitution.

If you took an oath of office, I would appreciate a copy for my personal knowledge and education.

Thank you.

Donald Stone
