Question: How much did Slade Gorton get paid to be on the 9/11 commission where he completely omitted the destruction of WTC #7 from any reporting? If there is a reasonable explanation for a 47 story concrete and steel building imploding at free-fall speed, why wouldn't the report have mentioned it? Why? Because he's just as much a joke on this commission as he was on that one, keep paying the same ol' coots to give you the same type of results. Pitiful. Go U.S.A.!
