Question: How do we accomplish the minimum of legislative districts within the City of Renton, at its worst we have had 5 different districts within the city. It is cumbersome I'm sure for the public officials to work with and as a resident I was absorbed by a district last time lines were drawn (37th) which, although the representatives are admirable, I have no interest whatsoever in the area. I am at the tail end of a district in which I do not shop, spend my free time, work or anything else. I live in downtown Renton, go to Renton Parks, my family members go to Renton Schools, I work in Renton, my husband works in Bellevue, there is nothing we do within the 37th district as far as I can tell except somehow we are assigned there. It is inhibiting regarding our willingness to engage in state politics because our working in that district would technically take care of our property I suppose but not our interests or our lifestyle. In short we do not identify with our legislative district. Help.

Recommendation: Please, put me in a district (11 district historically) that concerns itself with issues also relevant to the city in which I live and the areas in which I spend my time. My current district 37th does not fit the bill. I live in a municipality and much of the 37th is unincorporated King County. Crazy.
