Dear Redistricting Commission attached you will find photo of both Democrats and Republicans standing side by side in an effort not to see our communities divided. In 2001 only two communities in the Pierce County Council redistricting process were severed either east or west or north south . And those two communities of Spanaway and Graham will not suffer that indignation again . The most recent Pierce County Council redistricting maps went to great lengths not to sever these communities . We need to make sure that our Legislative Districts remain whole as much as possible.

Both of these districts now have community plans . Spanaway in 2002 and Graham in 2006 . Over 1 million taxpayer dollars went into making these community plans . Many of those pictured worked for over 4 years on creating those plans . If you do not have the map overlays for the community boundaries than Pierce County Planning and Land can provide that. The people living in unincorporated communities deserve the same respect as those living in municipalities.

.Just as you would never think of dividing Orting, Eatonville, or Yelm please never sever the peoples of Spanaway or Graham

Pictured left to right William Ames , Tim Fitzpatrick, Tammy Ceewright, John Siedl , Marianne Lincoln, Matt Hamilton, Art Duffy, Dave Darien . Four Democrats and four Republicans.
