Description of Proposed Districts

Generally speaking, the proposed Richland district is composed of Benton county, except Kennewick and neighboring unincorporated areas, and that part of Yakima county generally east of Granger and between the firing range and the Yakima river. This combines all of the agricultural areas of Benton county with neighboring agricultural areas in eastern Yakima county. The district is split about equally between Richland-Hanford and these agricultural areas.

Generally speaking, the proposed Kennewick district is composed of the city of Kennewick, some adjacent unincorporated areas and 95% of the population of the city of Pasco (56,969 persons out of 59,881). This district is overwhelmingly urban, allowing the nearby agricultural areas to be in districts much less urban than they presently are.

Generally speaking, the proposed Moses Lake district is composed of Adams and Lincoln counties, the southeastern part of Grant county, and that part of Spokane county north of the Union Pacific railroad and south of Hallett Road to the airport and Thorpe Road west of the airport, and all of Franklin county outside the city of Pasco, and a small part of the city of Pasco. This combines all of the agricultural areas of Franklin county into a single district with similar agricultural areas of counties to the north.

Generally speaking, the proposed Walla Walla district is composed of the trans-Snake counties and the Palouse. The Palouse area of Spokane county is the only part of a divided county included in the district. The district boundary in Spokane county is generally the Union Pacific Railroad on the west and Elder Road on the east. This results in the removal of the more urban area of Spokane county from the district and drops the district population in Spokane county from 29,682 in the current 9th district to 5,399 in the proposed district.

Vote for Statewide Candidates in Proposed Districts
(each compared with a current district)

Richland District

Year	Office	D candidate	D vote**	R vote**	R candidate	R percentage*	In current 8 th R percentage*
2006	Senator	Cantwell	15,501	19,812	McGavick	56%	56%
