

Washington State Redistricting Commission meeting November 8, 2011.

Dear Commissioners I appreciate your volunteer efforts on behalf of the Washington State citizens. In an effort to help the community of Graham Washington I would like to help identify the approximate boundaries of the Graham Community Plan.

- On the Northern Border the cut off Road should be 204th this is also the Growth Management Line.
- On our Southern Border the cut off line should be 356th
- On our Eastern Border the cut off line should be the Puyallup River
- On our Western Border the cut off line should be Pole Line Road or also called 8th Ave running north and south through Fort Lewis

Under the Huff/Gordon Plan we are divided North and South. We appreciate that under previous plans we were divided East and West. But we must remain as a community. This would also correspond with the approximate service area of Fire District 21 also called Graham Fire and Rescue.

Kind Regards,
Matt Hamilton
Graham, Washington
